

MOHAMED SAJID S

Augmented Full Stack Developer

[GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Innovative and driven Augmented Full Stack Developer with hands-on expertise in React.js, Firebase, and AI-powered application development. Skilled at building scalable, user-centric web platforms that combine modern frontend frameworks with cloud-based backend services and intelligent automation tools. Adept at translating complex requirements into elegant, high-performance digital solutions across academic, environmental, and consumer-facing domains. Committed to continuous learning and delivering impactful, real-world software products.

EDUCATION

Bachelor of Technology in Computer Science and Engineering 2023 – 2027

SRM Institute of Science and Technology

SKILLS

Technical Skills: JavaScript, React.js, HTML/CSS, Tailwind CSS, Firebase, TensorFlow.js

Frameworks: React.js, Vite, Node.js, ShadCN UI

Tools: Git, GitHub, Vercel, VS Code

Soft Skills: Problem-Solving, Team Collaboration, Communication, Adaptability

INTERNSHIPS

Web Development Intern | Prodigy InfoTech Jan 2025 – Jan 2025

- Completed a 1-month internship focused on responsive web development using HTML, CSS, and JavaScript.
- Designed and built interactive, user-friendly web components following modern design principles, improving cross-device compatibility and overall site performance.

Web Development Intern | CodSoft Dec 2024 – Jan 2025

- Developed responsive web applications and modern, user-friendly frontend interfaces using HTML, CSS, and JavaScript.
- Implemented frontend best practices, collaborated on project-based tasks, and strengthened skills in debugging and responsive design.

PROJECTS

Paperino – SRM Study Hub | *Tech Stack: React.js, Vite, Tailwind CSS, Firebase (Firestore, Auth, Storage), Gemini AI, Framer Motion, GSAP*

- Built a student-focused academic platform exclusively for SRM students to access semester-wise study materials, previous year question papers, notes, GPA/CGPA calculators, and AI-powered ATS resume analysis tools.
- Centralized bookmarks and academic resources in a modern, user-friendly environment, integrating Firebase for authentication, data storage, and Gemini AI for intelligent study assistance.

Live: [Paperino](#)

Paperino School (Ongoing) | *Tech Stack: React.js, Vite, Tailwind CSS, Firebase, Gemini AI, ShadCN UI, Recharts, Framer Motion*

- Developing a comprehensive educational platform for students from 6th to 12th standard, offering textbooks, study materials, previous year question papers, and important questions.
- Building AI-powered learning tools, online mock tests, exam updates, and progress tracking with analytics dashboards using Recharts and Firebase.

eBin Smart – AI-Powered Waste Management System | *Tech Stack: React.js, Vite, Tailwind CSS, TensorFlow.js, Google Teachable Machine*

- Built an AI-powered smart waste management system that automatically identifies and segregates waste using machine learning and IoT concepts.
- Promoted responsible waste disposal through a points-based rewards system and intelligent waste classification, encouraging environmental sustainability.
